Historic, Archive Document

Do not assume content reflects current scientific knowledge, policies, or practices.
This list covers all bulbs now available for fall and winter delivery. Scarcity is the great trouble. It is harder to get good stock to sell than it is to get orders.

All offers are strictly subject to previous sale. Many items will be quickly sold out so if any interest you it will be a fine idea to act promptly.

Unless otherwise stated all goods offered are for shipment from San Francisco Bay region.

In ordering please mention List 22-G.

**AMARYLLIS**
Vittata hybrids: Produce enormous flowers in shades of red with light or white stripes. All bulbs are flowering size. For shipment from Alabama.

LILIES

Lilium regale: The wonderful "Regal Lily" recently discovered in China. It is one of the most beautiful of all known lilies, the exquisite blending of tints and colors forming a charming contrast with the rich deep green foliage. Highly recommended for general culture both for pots and the open ground, where it is hardy, strong and permanent. Flowers white shaded purple, yellow at base. All bulbs offered are flowering sizes and for shipment from Alabama.

**FLOWER SEEDS**

Do you want the best? California is where they are grown and I have made arrangements with one of the very largest growers in the State which enable me to make quotations on request on high-class flower seed of any kind grown here. Send me a list of your wants.

**ROSES**

The following is a condensed list of varieties still available in 2-year-old, budded roses.

If you wish descriptions which are omitted here for lack of space refer to list 22-F of June 10, 1922 or write for a copy of it.

I also handle a full line of roses on own roots and will make quotations on request.
